

*Read the passage carefully and answer the questions that follow*

### THE FOOD WE EAT

Food is any thing that people or animals eat or drink. Food could be solid or liquid. We chew or swallow solid foods and drink liquid foods.

Some solid food we eat are ampesi, fufu, banku, konkonte, akple, tuo-zaafi, waakye etc. Some liquid food we drink are water, soup, porridge, fanta, coca-cola etc. We prepare the food we eat from different food stuffs

Some foodstuffs are plantain, cassava, yam, cocoyam, maize, meat, fish, beans and eggs. Some fruits are oranges, pineapples, mangoes, bananas, garden eggs, tomatoes and pepper.

We use cocoyam, plantain and cassava to prepare fufu. We use cassava and maize to prepare banku. Plantain, yam, cocoyam and cassava are all used to prepare ampesi. Again if we want to prepare soup, vegetables such as pepper, onions, tomatoes, garden eggs etc can be used.

Without food we cannot live to do anything. We eat in order to grow well. We became strong and healthy when we eat. If we do not eat we will die.
